

# Transition to SAP HANA: The Path to Digital Transformation

## Explore the Future with S/4HANA!

**SAP has announced that starting from 2027, support for the old SAP ECC systems will be discontinued, paving the way for the innovative SAP S/4HANA platform, which is a key step towards digital transformation.**

This migration is inevitable, but there's no need to worry—with proper preparation and consulting, you can smoothly transition to the new system and even capitalize on the benefits offered by modernization.

Implementing SAP HANA not only involves significant business and technical redesign but also a complex transition that requires substantial time, resources, and investment.

### Why Should You Still Consider It?

Implementing SAP HANA is not just a technological shift; it's an opportunity to modernize your business, improve efficiency, and enhance competitiveness. With Spirity's support, you can confidently embark on the path of digital transformation and fully leverage the benefits offered by SAP HANA.

## Key Benefits

- **Modern Technology**

SAP HANA leverages the latest database and data analytics technologies, enabling the creation and implementation of innovative business solutions.

- **High Performance**

SAP HANA's in-memory database technology allows for rapid data access and processing, leading to significant speed improvements in business operations.

- **Real-Time Analytics**

With SAP HANA, data is instantly accessible and processed, enabling real-time analytics and decision-making.

- **Scalability**

SAP HANA offers both horizontal and vertical scalability, allowing it to adapt to evolving business needs and growth.

- **Cost Reduction**

With SAP HANA, infrastructure investments can be optimized, leading to reduced operational costs.

- **Complex Data Analysis**

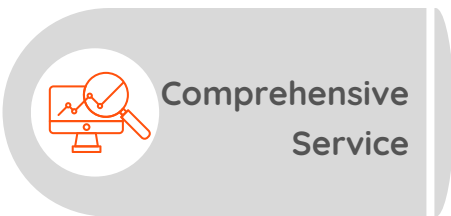

SAP HANA excels in handling complex data analyses, including the integration and analysis of large datasets.

## About Us

Spirity Enterprise cPlc. is an independent, professional advisory company with more than 25 years of experience in the field of IT and cyber security services. We have a unique service profile and we work together with wide spectrum of industries from telecommunication, energy, banking, automotive and other public and private sectors.

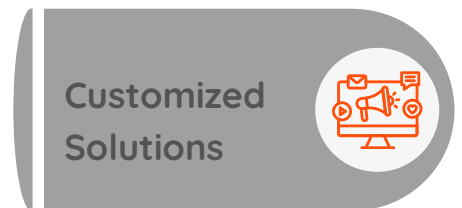

# SAP HANA: Fast and Efficient Transition

Spirity is your trusted partner on the path to digital transformation. With over 25 years of experience in IT development and cybersecurity, we have successfully assisted numerous companies in implementing SAP HANA and optimizing their business processes.

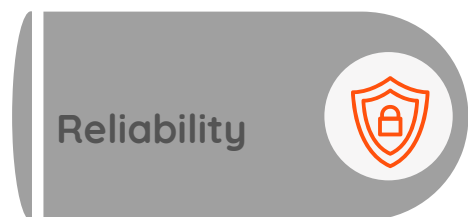

The transition to S/4HANA is crucial for business transformation, requiring leadership commitment and stakeholder involvement. Spirity offers technology consulting, detailed planning, data preparation, execution, and continuous support for a successful transition. They assess and enhance organization, processes, IT capabilities, and architecture with experienced professionals committed to innovation.

We offer each of our clients a customized strategy, taking into account the specific needs and challenges of their business. Instead of using generic solutions, we design efficient, measurable projects that are fully customized to your requirements.

Spirity's experts maintain constant communication with clients to ensure a steady flow of information throughout the project. We provide up-to-date insights so you're always aware of the progress and status of the project. We develop a comprehensive change management strategy that includes a communication plan, training programs, leadership support, and change management tools.

Finding the right partner fundamentally influences whether the project will be successful. Mutual trust is crucial to ensuring the success of the transition. From gathering and managing requirements to implementation and testing phases, through to go-live and the post-implementation support period, the Spirity team works closely with your organization's IT and business teams.

We understand that implementing SAP HANA requires substantial financial and human resource investment. Therefore, we strive to execute the project in the most cost-efficient manner while delivering the highest quality service.
